

Reinsurance Asset Management

Insurance and reinsurance companies are increasingly experiencing problems with the performance of their existing broker in the servicing of an account.

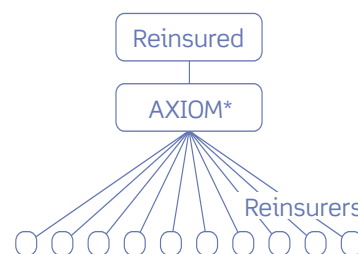

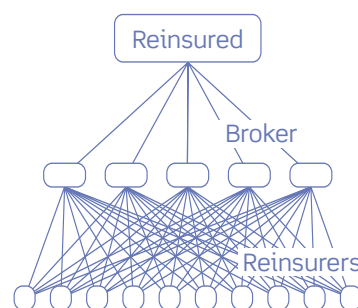

The current perceived issues within the market place are:

- ▶ Delays in the processing, presentation and agreement of claims, due to
 - Insufficient understanding of the reinsurance programme
 - The determination of the recoverability of losses
 - Lack of information to create an effective billing
- ▶ The need to have up-to-date information relating to each reinsurers status per claim presentation
- ▶ Negative cash flow
- ▶ Ineffective communication from reassureds through to reinsurers
- ▶ Inefficient use of resources in representative broker
- ▶ Time bar scenarios
- ▶ Frustration and antagonism caused with existing reinsurers

Axiom is an authorised Lloyd's run-off broker, and as such, is in a unique position of being able to utilise its resources to replace the original broker and create an added value solution. Axiom has a proven track record in the provision of reinsurance recovery solutions for companies worldwide in relation to all classes of business, recovering in excess of US\$1bn since its formation in 1989.
